### AERAMAX PRO 2

Small. But big.

The super slim design of the AeraMax Professional 2 makes it the perfect fit for smaller spaces, offering 3-5 air changes per hour in shared indoor spaces between 150 and 250 square feet. It's ideal for smaller examination rooms, narrow hallways and small public restrooms.

### AERAMAX PRO 4

The right size for large spaces

The AeraMax Professional 4 is the largest of our commercial grade air purification systems and will deliver an air change every 20 minutes in rooms up to 1100 square feet. Multiple units can be used for larger spaces making it the ideal solution for open office layouts, large conference rooms and many large shared air spaces.

# CLEAN THE AIR WE SHARE

HEALTHY AND SAFE SPACES MATTER NOW, MORE THAN EVER

# Fellowes

## AIR PURIFIERS

### CLEAN THE AIR WE SHARE

Indoor Air Matters. We spend 90% of our time indoors and nine hours every day sharing spaces with others. While we don't usually give much thought to indoor air quality, we should. The air we breathe indoors is up to five times more polluted than outdoor air.

Public spaces, like offices, health care facilities and schools are breeding grounds for bacteria, viruses, dust and allergens, and harsh chemicals and odors.

While we all recognize the need to wash our hands and clean common surfaces like doors, tabletops, bathrooms, it's not enough.
